

CALL FOR INDUSTRY TALKS

The Organizing Committee of the IEEE PES ISGT Middle East 2025 is excited to announce a dedicated platform for Industry Talks, to be held during the conference in Dubai from 23 to 26 November 2025. These sessions aim to maximize opportunities for industry professionals to share their innovations, solutions, and real-world applications in smart grid technologies without the need for a full paper submission. Recognizing the importance of confidentiality, recordings of these talks will not be taken. Indicatively the duration for the talk is 10 minutes.

Objective

Industry Talks are designed to:

- Provide a forum for showcasing innovative solutions, products, and services relevant to smart grids and energy systems.
- Foster collaboration between academia, research, and industry stakeholders.
- Highlight practical experiences, challenges, and success stories from the field.

Note: While this platform offers an excellent opportunity for industry exposure, the focus of the presentations should be on innovation, solutions, and advancements rather than promotional content or sales pitches.

Submission Guidelines

Interested participants are invited to submit a proposal containing the following details:

- **Title:** A concise and informative title for the talk.
- **Presenter(s):** Names, affiliations, and contact details of the presenter/s including bio photo/s.
- **Abstract:** A brief description (maximum 300 words) of the talk's content and objectives.
- **Key Highlights:** Identify the main innovations or insights to be presented.
- **Relevance:** Explain how the talk aligns with the conference's themes and objectives.
- **Audio-Visual Requirements:** Specify any technical or logistical needs for the presentation.
- **Financial Support to the Conference:** Indicate whether the organizers or speakers can provide financial support to the conference (e.g., contributing to conference sponsorship).

Evaluation Criteria

Proposals will be evaluated based on:

- Relevance and alignment with the conference themes.
- Innovation and uniqueness of the topic.
- Practical insights and applicability to the energy sector.
- Clarity and quality of the proposal.

IEEE ISGT Middle East 2025

23-26th Nov 2025, Dubai, UAE

جامعة دبي
UNIVERSITY of DUBAI

Important Notes

Presenters are encouraged to focus on practical insights and innovations. Talks will not be recorded, ensuring a safe space for sharing confidential or proprietary information.

Abstracts may be published in proceedings and programme.
